Perth Art Glass

We offer a range of glass cutters to suit your needs, whether it's straight lines or circles; and a huge selection of pliers for breaking, running and grozing your glass. We carry a selection of soldering irons and associated products for lead and copper foil work; such as lead knives, vices and hand foilers. We carry all the leading brands including Weller, K-Star and Leponitt.

Glass Cutting

Clear acrylic tapered handle glass cutter, with profilled grip, 138 degree tungsten carbide wheel. Oil filler included. Cutting oil sold separately.

Narrow Clear K-star Glass Cutter **Code: T305A**
Wide Clear K-star Glass Cutter **Code: T305B**

Brass tubular handle for hard service and wear, 138 degree tungsten carbide wheel. Oil filler included. Cutting oil sold separately.

Narrow Brass K-star Glass Cutter **Code: T308A**
Wide Brass K-star Glass Cutter **Code: T308B**

Pistol Grip Glass Cutter with a narrow head and ergonomic design. Feels comfortable in your hand for better control.

Cutter head can be set in either a swivelling or locked position.

Oil filler included. Cutting oil sold separately.

Pistol Grip K-star Cutter **Code: T303A**

K-star replacement glass cutter heads, for brass and acrylic handled glass cutters.

Narrow Head **Code: T50079**
Wide Head **Code: T305B/Head**

Silberschnitt® Strip Cutter
For efficient cutting of equally wide glass strips. Adjust strip width max. 2cm, cutting angle 138°

Silberschnitt® Strip Cutter **Code: TSTRIP**

Strip Cutter

The K-star speed cutter is a heavy duty rigid construction speed cutter with an oil fed sliding cutter head.

The high strength cutter bar has a recessed tape pocket & twin roller track for smooth movement with cutting.

Sizes available:

300mm **Code: TC300**
600mm **Code: TC600**
900mm **Code: TC900**
1200mm **Code: TC1200**

Circle Cutter

Silberschnitt® Circle Cutter

Ideal for cutting circles to size, the cutter bar is dimensioned and has a suction cap centre for securing the glass.

Wheels and turret can easily be changed, cutting angle 135°

400mm diameter **Code: T510.0**
600mm diameter **Code: T511.0**

Circle/ Strip Maker

This tool is ideal for both circle and strip cutting, with you own cutter fitting in the specially designed cutter attachment.

Circle/Strip Cutter **Code: T20525**

Ezycut waterbased cutting fluid. Glass Cutter Fluid 90ml **Code: CH50057**

Pliers and Hand Tools

Pro Grozing Plier

Grozer with curved jaw for controlled nibbling on an unevenly scorred line. They may also serve as breaking pliers for parting thin scrap.

Pro Grozing Plier

Code: T22210

Deluxe Grozing Plier

A high quality version of the T22210 Grozing Plier. The professionals choice.

Deluxe Grozing Plier

Code: T9001

Fan Out Grozing Plier

A popular choice of pliers. These Japanese made grozers are high quality and great to use.

Fan Out Grozing Plier

Code: XT110

Metal Running Plier

All steel with a 25mm wide jaw, has a limit screw which can be adjusted for glass thickness to prevent crushing.

Metal Running Plier

Code: T2225

Pro Running Plier

Lightweight with special inserts designed for accurate alignment with score line for smooth breaks. Includes spare jaw inserts.

Pro Running Plier

Code: T22181

Pro Breaking Plier

Traditional breaker for straight lines and gentle curves.

Pro Breaking Plier

Code: TB22215

Lead Cutters

Super Lead Dyke

Diagonal nipper for lead with extra sharp tempered steel jaws, non-bevelled cutting edges won't crimp your lead came. Spring loaded, comfort grip.

Super Lead Dyke

Code: TD22225

Fan Out Lead Dyke

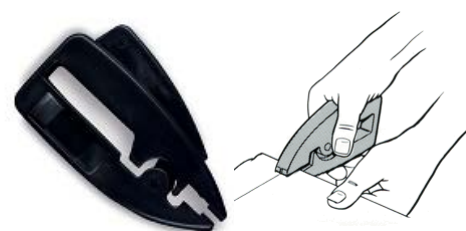

These Japanese made quality lead cutters provide you with easy precise cutting of your lead.

Fan Out Lead Dyke

Code: TXT030

Glass Snapper

A running plier for thin glass. The trigger action makes it faster and easier to break out difficult cuts that may be impossible by hand.

Glass Snapper

Code: TSNAPPER

Lead Knife

Stainless steel blade with wooden handle.

Lead Knife

Code: T2507

Pro Lead Knife

Sharpened steel with heavy duty metal weighted end. Popular and efficient shape.

Pro Lead Knife

Code: T2510

Glass Mosaic Cutter

The two tungsten carbide wheels on this handy tool provide fast accurate cutting of mosaic tiles. Can cut up to 6mm thick ceramic or glass.

Leponitt Mosaic Cutter

Code: T2231

Soldering Equipment

Weller 80W Iron

The Weller 80 Watt soldering iron is one of the most popular soldering irons used in stained glass. The 80W iron is made especially for working with stained glass.

Weller 80W Iron
Weller 80W Iron Wide Tip

Code: TSPG80D
Code: TSPG80W

Weller 100W Iron

A 'tip' temperature controlled iron which automatically keeps the tip temperature from exceeding 427°C allowing soldering without the chance of melting the lead came.

Weller 100W Iron

Code: TW100D

Weller Soldering Station

The Weller Soldering Station is an electronically controlled and designed to give quality performance for all leadlighting work. The adjustment knob allows the user to solder with control from 5 to 80 watts of power. It includes an 80 watt leadlighting iron with a 6mm plated tip.

Weller Soldering Station **Code: TWLC80D**

Soldering Iron Scope 80W

The Scope Soldering Iron is durable, light weight and holds its temperature well.

Scope Soldering Iron 80W

Code: TMH80-MGL

Pro Soldering Iron Stand

This cast iron base stand stays in place when the iron is removed and replaced. Comes complete with tip cleaning sponge.

Pro Soldering Iron Stand

Code: T2188

Tip Cleaning Block

Solid brick of Sal-Ammoniac. Rub hot iron tip on brick to keep bright and clean. Non-Abrasive.

Tip Cleaning Block

Code: CH50701

Drill Bits

Diamond Point Drill Bits

Used with your battery operated drill to easily drill holes in glass. Must be drilled using a water bath.

1mm Diamond Point Drill Bit

Code: T1MM

2mm Diamond Point Drill Bit

Code: T2MM

3mm Diamond Point Drill Bit

Code: T3MM

4mm Diamond Core Drills

Code: T4MM

5mm Diamond Core Drills

Code: T6MM

8mm Diamond Core Drills

Code: T8MM

10mm Diamond Core Drills

Code: T10MM

12mm Diamond Core Drills

Code: T12MM

Copper Foil Tools

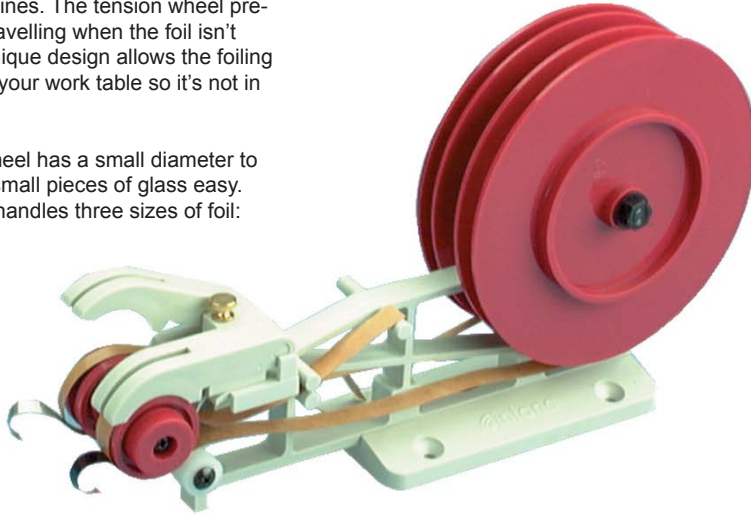

Edge Master Copper Foiler

Automatically crimps foil while it is applied for more even solder lines. The tension wheel prevents foil from unravelling when the foil isn't being drawn. The unique design allows the foiling wheel to overhang your work table so it's not in the way.

The application wheel has a small diameter to make foiling very small pieces of glass easy. The Edge Master handles three sizes of foil:

- 5mm
- 5.5mm
- 6mm

Code: T70000

Lens Cutter

Cuts precise circles from 1cm to 12cm in diameter. Comes with 3-wheel cutting head for long life. Excellent for cutting lots of sun catchers, holiday ornaments and medallions.

Lens Cutter

Code: TLENS

Hand Foiler

Easy to use, inexpensive and accurate beyond belief. The Hand Foiler makes copper foiling effortless.

Hand Foiler 6mm
Hand Foiler 5.5mm
Hand Foiler 5mm

Code: T2391
Code: T2392
Code: T2393

Kwik Krimp

To smooth down foil onto glass surface and overlaps. Burnishes foil to 3 sides in one swipe.

Kwik Krimp

Code: T2403

Tidy Foil Dispenser

End fumbling with a roll of copper foil while wrapping glass. The plastic tray holds all sizes plus some tools.

Tidy Foil Dispenser

Code: T2406

Glass L-Squares and Rulers

Aluminium Rulers

Aluminium straight edge with calibrations in 1mm increments. Ideal for pattern drawing. Non-slip backing makes these straight edges perfect for straight line glass cutting.

450mm Aluminium Ruler
600mm Aluminium Ruler
1000mm Aluminium Ruler

Code: T2810
Code: T2820
Code: T2830

Cutting Bar

The Grip-A-Lot Cutting Bar has an excellent silicon rubber backing which holds the bar firmly on the glass with minimal pressure so you can concentrate on your cutting without being concerned about the bar slipping.

300mm Cutting Bar
500mm Cutting Bar
650mm Cutting Bar
1000mm Cutting Bar

Code: TRULER-300
Code: TRULER-500
Code: TRULER-650
Code: TRULER-1000

L Square

Excellent for straight line cutting, each ruler has a cutting edge on the bottom to ensure a 90° score. Suitable for right or left hand, the rulers come in both a convenient size for hobby cutting and larger sizes for longer glass.

L-Square without brace 313mm **Code: TRL313**
L-Square without brace 465mm **Code: TRL465**
L-Square with brace 625mm **Code: TRL625**

Miscellaneous Tools

Plastic Lathekin

This tool opens and closes came, burnishes copper foil, removes excess cement and levers glass into lead. Also known as a fid Plastic Lathekin

Code: T2404

Stainless Steel Brush

Stainless steel brush for removing oxides from lead came before soldering.

Stainless Steel Brush

Code: T2453

Pro Glazing Hammer

One head is rubber for use on the glass, the other head is metal for use on lead or nails.

Glazing Hammer

Code: T2200

Safety Glasses

Lightweight plastic, crystal clear. Made from special optical acrylic that will protect your eyes whilst giving you clear vision of your work.

Safety Glasses

Code: T2963

Sickle Stone

As simple as it gets. An aluminium-oxide abrasive stone for hand smoothing of sharp glass edges.

Sickle Stone

Code: T2461

Lead Vise Spring Loaded

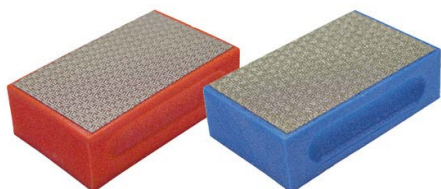

Serrated jaws grip lead came for a firm hold while stretching. Can be firmly attached to your workbench.

Lead Vise Spring Loaded

Code: T2650

Diamond Hand Pads

Flexible Diamond Polishing and Lapping. For removing sharp edges, finishing cut outs and touch-ups on machine edge pieces.

Diamond Hand Pad 60 Grit

Code: TGRIT60

Diamond Hand Pad 200 Grit

Code: TGRIT200

Diamond Hand Pad 80 Grit
